

ADDITIVES – to maximise functionality and provide superior solutions to the challenges faced in our ever developing environment, we offer an extensive range of specialty chemical additives...

Aminoalcohols – *Water treatment, chemical intermediates*

Antiskinning agents – *Isocyanate blocking*

Biocides – *Lubricants, HI&I*

Fillers and extenders – *Plastic film and Masterbatch*

Organo tin catalyst – *PU Foams, Silicones*

pH control agents – *Water treatment, Firefighting Foams*

Plasticiser – *Plastics, Foams*

PTFE powders – *Lubricants, Greases*

Reducing agents – *Lubricants, Polymerisation, Vulcanisation, Textile printing and dyeing*

Rheology modifiers – *HI&I, Construction, Lubricants*

Surfactants– *HI&I, Construction*

Waxes and wax dispersions – *Lubricants*

Wetting agents – *HI&I*

SOLVENTS –

Butoxyl® – *Personal care*

Di Basic Ester 5 (DBE-5) – *Pharmaceutical*

Methyl Acetate – *Chemical synthesis*

N-Methyl Pyrrolidone (NMP) – *Chemical synthesis*

Nikane MS5000 – *Chemical synthesis*

Nipar S-10 – *Chemical synthesis*

Propylene Carbonate – *Personal care and cosmetics, chemical synthesis*

PIGMENTS –

Sudarshan SUDACOLOUR, SUDAFAST, SUDAPERM – *Plastic masterbatch*
