

BannerSolve®

Formulated Performance Solutions!

Introducing **BannerSolve Flex**

Discover our new range of specially formulated solvent blends designed for the Flexographic printing industry. The **BannerSolve Flex** range is formulated with performance in mind:

- **High purity solvent blends** giving consistent and reliable performance
- **Efficient tailored solutions** with an extensive range of solvent properties and evaporation rates to choose from, allowing for increased press speeds and offering optimum print finish and drying rates for your process
- **Avoid defects** caused by incorrect dry rate or poor ink re-solubility. **BannerSolve** has the right blend for your specific inks with tailored Alcohol and Acetate balance to offer perfect re-solubility for your chosen ink. Improved quality and less down time
- **We're always here to help** with our thorough technical backup, support and advice
- **Pack sizes available** - drums, IBC's and bulk tanker deliveries
- **Adding value to your supply chain** with flexibility, efficiency and innovation!
