

Samuel Banner & Co Limited

Specialty Chemicals Business Unit

Colour Dispersions

Banner Chemicals supplies an extensive range of pigment dispersions, with suitability for a wide variety of end uses. The list is endless, and we aim to supply any requested industry standard from the Colour Index (CI System). We also have the capabilities to customize colours to specific requirements.

Our portfolio currently consists of dispersions based in:

Plasticiser

Epoxy

PU/Polyol

Polyether

Solvent

Oil

Universal

with applications ranging from foams to automotive, decorative and industrial coatings, we assure to always formulate with the best suited additives to optimise rheology and maximise colour performance.
